

HOW PENNY-LESS CHECKOUT REALLY WORKS

Dynamic Rounding

A simple breakdown of how rounding rules apply at checkout—and how to track the dollars behind it.

WHAT IS DYNAMIC ROUNDING?

Dynamic rounding is the logic used in penny-less checkout to round the **FINAL TRANSACTION TOTAL** to the nearest \$0.05. Prices don't change — only the final payable amount is adjusted.

WHY GROCERS USE DYNAMIC ROUNDING

Compliance-Ready
To meet any future federal guidelines for penny-less transitions.

Customer-Friendly
Simple, predictable final totals.

Operationally Easy
Logic applies automatically at POS—no retraining on pricing strategy.

Transparent
Printed on receipts for clarity.

HOW RAVYX ROUNDING RULES WORK

Amounts Ending in 1¢ or 2¢ → Round Down

Example:
Total = \$12.01 → \$12.00
Total = \$7.02 → \$7.00

Amounts Ending in 3¢ or 4¢ → Round Up to 5¢

Example:
Total = \$19.03 → \$19.05
Total = \$8.04 → \$8.05

Amounts Ending in 6¢ or 7¢ → Round Down to 5¢

Example:
Total = \$4.06 → \$4.05
Total = \$33.07 → \$33.05

Amounts Ending in 8¢ or 9¢ → Round Up

Example:
Total = \$10.08 → \$10.10
Total = \$52.09 → \$52.10

Totals Ending in 0¢ or 5¢ → No Change

Example:
Total = \$6.25 → \$6.25
Total = \$20.00 → \$20.00

REPORTING & FINANCIAL IMPACT TRACKING

Measure the Real Effect on Your Store.

Daily Reports

Track rounding totals day-by-day to monitor cash overage and shortage impacts.

Weekly Reports

See trend patterns, rounding-neutrality, and how different departments contribute.

Monthly Reports

Understand long-term impacts and confirm rounding compliance across all stores.

Dynamic rounding is designed to be financially neutral, but reporting ensures your store confirms the net effect over time.

BENEFITS

- ✓ **100% Automated:** No manual adjustments needed.
- ✓ **Fully Auditable:** Clear rounding totals for every transaction.
- ✓ **Financially Fair:** Over time, positive and negative rounding offsets.
- ✓ **POS-Integrated:** Works seamlessly across cash, debit, and credit transactions.
