

Generate Greater Adaptability Through
Intelligent Technology Ravyx + Toshiba

ELERA: BUILDING A MORE AGILE, DATA-DRIVEN BUSINESS

Where efficiency is at the forefront of businesses decision making tasks, finding new ways to stay agile in day-to-day operations is crucial. Utilizing tools that deliver real-time data, help profitability through shrink reduction, create faster and more calculated decisions based on real-time data are important pillars to a successful business.

At Ravyx, we help independent grocers implement technology solutions that fit their unique business needs. Through our partnership with Toshiba, we deliver a modular, intelligent, AI-powered platform that transforms customer data into calculated decision built for adaptability.

From making better decisions, faster real-time data processing or shrink reduction, Ravyx and Toshiba's Elera platform provide the tools and expertise to help you succeed and create a future-ready business environment.

WHY GROCERS CHOOSE RAVYX FOR POS SOLUTIONS

We Build Around Your Business Needs, Not The Other Way Around.

Ravyx understands that every grocery retailer operates differently. That's why we work with you to implement an intelligent platform designed to simplify your daily operations and make calculated decisions that align with your long-term business goals.

DECADES OF GROCERY TECH EXPERTISE AND PROVEN IMPLEMENTATION

- Strategic day-to-day operation solutions
- Seamless POS and retail technology integration
- End-to-end deployment and support
- Ongoing optimization and retention guidance
- A scalable solution designed for long-term growth

Ravyx Powered by Toshiba's

AI-ENABLED RETAIL INTELLIGENCE PLATFORM

Ravyx and Toshiba provide an integrated Ai-powered platform for POS systems that offers fast and real-time data that allows for improved workflows, shrink reduction and visibility.

✓ IMPROVED LABOR EFFICIENCY

Faster employee workflow assistance for customers with real-time mobile assist from anywhere in the store

✓ CUSTOMER ENGAGEMENT & RETENTION

Using data-driven targeting for effective retention building campaigns based on personalized engagement strategies

✓ SHRINK REDUCTION

Powered by an Ai-driven computer vision that helps loss prevention using produce recognition

✓ GREATER VISIBILITY & ACTIONABLE INSIGHTS

With AI-assisted insights, retailers can make better business decisions based on real-time data

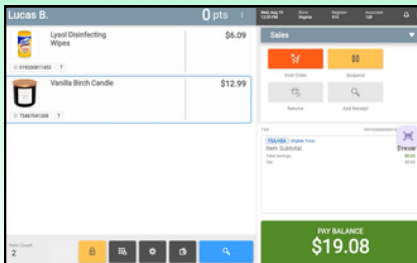

✓ SIMPLIFIED CHECKOUT EXPERIENCE

Frictionless self-checkout and consistent payment processes for improved customer shopping experience and seamless transactions

✓ PRE-BUILT DEPLOYMENT

Install pre-built capabilities quicker with Toshiba-led deployment that increases workflow and adapts to any retail environment

TURN DATA-DRIVEN PROCESSES INTO ACTIONABLE GROWTH

With Ravyx's retail technology expertise and Toshiba's data-driven, AI-Powered platform ELERA, independent grocers can optimize visibility, checkout experience and shrink reduction demonstrating promising and measurable business growth without adding complexity to day-to-day operations.

Ready to integrate better operational tools?

POWERED BY RAVYX

For nearly 60 years, Ravyx has helped grocery retailers adapt, innovate, and modernize alongside the retail technology demands. Across all of North America, we provide Electronic Shelf Labels, POS systems, self-checkout, back-office tools, and integrations. We help retailers build smarter stores that are designed for both today and tomorrow's operational demands more efficiently to stay competitive and confidently embrace new technology.
